# of players	1-2
Online play	Enabled (up to 4 spectators)
DLC	N/A
Website	http://atlus.com/aquapazza
Packaging	English
Images & More	www.atlus.com/sales

AquaPazza™

Examu, the creators of the acclaimed *Arcana Heart* series, and AquaPlus join forces to introduce *AquaPazza,* a new entry in the 2D fighting game genre. *AquaPazza* first appeared as a popular arcade game crossing over characters from various anime series and featuring a one-of-a-kind fighting system!

Eclectic cast of characters

The combatants in AquaPazza are a diverse bunch – from the studious bookworm Manaka who, no kidding, attacks with a bookshelf to the lance-wielding, shield carrying Sasara.

Partner system

Players select from one of the thirteen partners to accompany them. Partners assist players as one of three classes with one of four different actions. Players get rewarded for aggressive play styles and the partners add an additional skill element to help break defensive play.

Tournament-level competition

Developed by Examu and Aquaplus, AquaPazza has a strong backbone of fighting game mechanics with twitch response times and huge combos.

Variety of gameplay modes

Each character has a storyline of their own, which unlocks the “another story” mode and an alternate ending. There’s also a time-attack mode, training mode and a gallery mode.

Online play

Take to the internet to challenge players in ranked, unranked and friends-only matches.
